

Graphical representation of TSL

<http://ipsec.pl/node/719>

Simple tool to convert TSL in ETSI TS 102 231 format to FreeMind files. From this format they can be further exported to various graphical formats - PDF, SVG, HTML etc.

Attached files are MM (opened by `ja href="http://freemind.sourceforge.net/wiki/index.php/Main_Page" > FreeMind < /a >`), PDF and Python source code. Yes, I know XSLT could be probably used here but first I'd have to learn it.)
