

## UODO Survival Kit 2.1

<http://ipsec.pl/node/749>

Polish ISACA chapter published a new version of "UODO Survival Kit 2.1", a comprehensive reference on data privacy regulations in Poland.

The document describes various requirements originating from Polish data privacy act (UODO - ustawa o ochronie danych osobowych) and how these are handled by governmental organisation that guards these regulations (GIODO - Główny Inspektor Ochrony Danych Osobowych). It also contains appropriate mappings to COBIT standard.

The "UODO Survival Guide" is available both in Polish and English on ISACA Poland website:
